

Lower Mainland Museum Educators

Save the Date

MONDAY, JANUARY 9TH, 2017.

The Lower Mainland Museum Educators are delighted to inform you of an upcoming educational conference. This conference is aimed at all staff, volunteers (and those of us in-between) who work in or are interested in informal education. Think museums, galleries, after-school programming, adult events, and more!

Our hope is that many front-line educators and volunteers will have the opportunity to attend a local conference. This is our chance to learn from each other, try leading a conference session, network with fellow educators, and best of all, we are keeping registration fees as low as possible!

More information to follow.

A special thanks to Telus World of Science Vancouver for hosting the conference
