

Object Number	Object Name	Description
1992.40.522 1992.40.2335	adapter	A black cord with one receptacle end for 240V outlets, and other end a receptacle for 120V.
1992.40.270, 1992.40.273, and 1992.40.2095	ammeter	3 metal ammeters for mounting on walls or machines
1980.148.27	Andiron	Pair of cast iron andirons repainted copper. Section for supporting logs has been removed.
1992.40.439-442	bearing, ball	4 small steel, circular ball bearings
1992.40.525	bell, signal	Small, black-coated metal, "EDWARDS - 17-" signal bell.
1992.40.258, and 1992.40.532	bob, plumb	2 large steel pumb bobs
1992.40.42-44	brick, welding	3 medium sized welding bricks
1992.40.247 1992.40.2334	brush	Natural fibre brush with light long square wooden handle.
1992.40.320, and 1992.40.352	bucket	2 round metal 8 gallon buckets
1992.40.121, and 1992.40.199	cable, coaxial	2 rolls of coaxial cable
1989.34.6	Cart	Metal, 3 tier cart on 4 wheels, top is recessed, handle at side extends width of cart
1992.40.178	caulking gun	Blue powder coated metal caulking gun. white plastic tube "GE RTV Silicon Adhesive Sealant"
1992.40.2350 1992.40.2352 1992.40.2344-2349 1992.40.2351	cutting torch tip	9 assorted brass welding torch tips
1992.40.50	die, wire drawing	Thick steel die with articulated section which closes to mold a curved "U" shape. The die is mounted on a steel plate with a lip along one side with an oak wood handle attached to the base.
1978.65.1	Drag saw	Large homemade drag saw; wooden frame with metal wheel, engine, gas tanks (crushed), and large rectangular saw blade
1991.53.165	Drill, hand	Orange "Petita" brand "EDGERITE" hand drill with black crank handle and a silver coloured chuck.
1976.90.1, and 1978.65.2	Engine, gasoline	2 medium sized industrial gas engines dirty and worn, one cracked
1988.72.1	Forge	Rusted steel forge with circular firepot, threelegs, and a blower which attaches to one side
1992.40.263	funnel	Galvanized steel, conical funnel with small hole around rim. Surface paint accretions.

Object Number	Object Name	Description
1992.40.28	gaskets	A collection of 8 large gaskets with handwritten tag reading: "VPSI /Insultaion Shop
1984.70.1	Gauge, pressure	Two morrison brass pressure gauges. Contains aseptos
1992.40.49, 1992.40.108-113, and 1992.40.322	gauges	8 small misc pressure and hydrualic gauges
1992.40.445 1992.40.2332	hammer, chipping	2 steel chipping hammers with narrow head
1980.77.1	Hand drill	Wood and metal adjustable drill
1992.40.203	lens, welding	Dark lens for welders mask, encased in rubber border.
1992.40.2282-2286 1992.40.2288	lens, welding	6 plastic covered replacement lenses for welder's mask
1992.40.2391	light pendant	Steel hanging light fixture with a long cord.
1987.19.1	Melting pot	a) lead-caster; b) lead melting pot
1990.17.1	Mining drill	Citing and drilling machine for surveying and putting in pope lines
1988.36.1	Patch, tire	Cast iron tire patch press with remnants of red and blue paint layer
1972.73.11a-ah 1976.92.1 1988.71.1	Press, printing	3 printing presses
1992.40.518	pyrometer	Brown Recorder pyrometer with extension for temperature transducer consisting of a large round, black painted dial with long wire extension and cylinder shaped transducer on end. Has small metal plate inside glass on dial with serial and model number; volts, amps, etc.
1992.40.52, and 1992.40.63	regulator	2 regulators with metal bodies and glass faced gauges
1992.40.45, 1992.40.47, 1992.40.321, 1992.40.324, 1992.40.328, 1992.40.431-432, and 1992.40.527	resistor	8 bar resistors of clay or plastic wrapped in metal
1992.40.17	Rheostat	A square shaped metal box framed rheostate with a black knob in centre and open in the back to reveal some black coated wires and a metal circluar shape with a ceramic circluar centre piece.
1979.138.6	Saw vise	"Wentworth" heavy duty saw vise affixed to timber plank
1972.97.3	Sharpener, tool	Armstrong circular rip saw sharpener: blue metal, 7 pieces
1992.40.30-33, 1992.40.35, 1992.40.37, 1992.40.289, 1992.40.346, 1992.40.367-373, 1992.40.397, and 1992.40.457	spool, wire	16 wood and metal spools of various sizes with different types of wire and cable

Object Number	Object Name	Description
1992.40.349	tester, electrical	An electrical tester consisting of 4 sockets, 4 leads/volt line stations and a lamp testing socket all mounted on a rectangular piece of insulating material.
1992.40.2096	thermometer	CAMBRIDGE INSTRUMENT CO. thermometer in a black, coated metal case with a curved, glass window to view the gauge and a folding handle on the top.
1990.16.1	Tool rack	Has a water trough pan like centre for cooling tools and a hanger around the edge for hanging tools onto.
1992.40.64 1992.40.65 1992.40.74 1992.40.54	torch, acetylene	A long, brass, gas welding torch.
1992.40.259	vise	Small, cast steel "STANLEY" metalworking vise with grey and red painted surface. Vise has a G-clamp for mounting to a bench and a small integral anvil behind the jaws.
1992.40.268-269, and 1992.40.272	voltmeter	3 metal and glass voltmeters with gauges and wall mounts
1991.53.176	welder's hood	Black welding hood with integrated hard hat and welding visor (glass is missing) and knitted neck cuff
1992.40.2360	welders jacket	Leather welders jacket
1991.53.170, and 1991.53.172	welder's mask	2 dark plastic welder's masks with yellow plastic adjustable head fittings
1992.40.2256	welding mitten	asbestos lined welding mittens
1992.40.375	welding plugs	cylindrical welding plug interiors
1992.40.376-379	welding receptable fragments	4 short, cylindrical, black plastic welding plug receptacles.
1992.40.48, 1992.40.117-119, 1992.40.183 1992.40.2340	wheel, grinding	6 small grinding wheel discs
1988.91.1	Wheel, lapping	Lapping wheel components attached to a board with two separate polishing wheel fixtures and a small buffing pad.
1986.6.12	Winch	Cast iron and steel winch with a solid triangular frame on each side and a central drum with steel cable wound around
2004.27.18, 2004.27.20, and 2004.27.45	spool, wire	3 wood and metal spools of various sizes with different types of wire and cable
INV1314	Electric meter	5mm plywood with a Volt meter and Amperes meter, switches and outlets

Object Number	Object Name	Description
2013.INV.924	gauge, welding	Round "UNIONMELT" welding gauge in a black plastic housing
2012.INV.160	Lathe, woodworking	Metal "CMC" woodworking lathe painted grey-green. Stands on two A-frame legs with two black wheels under the lathe bed and a chisel rest attached to the top.
INV0868	Motor	Century Repulsion Start Induction Single Phase Motor, Type RS with black metal casing
INV1174	Planer, wood	"DELTA" surface-planing machine with a grey-painted base and sawdust chute.
INV1063	Tool grinder	Cylindrical, dark blue "Century" single phase motor with stone grinding wheel attached.
2013.INV.938 2013.INV.940	welder, electric	2 electric arc stud welders
INV1294	welders tool	steel welder's tool.
INV1291	welding nozzle	group of 6 welding nozzles
INV0663 INV2009-0237	Wire	2 spools of wire
INV1085	Wrench, box-end	Large heavy industrial sized box-end wrench
