

Final Deaccession List for BCMA Listserv

No.	Location	Accession No.	Object	Description	Provenance	Image
3	OS-NA	1962.0238.0001	Butter churn part	Black wood L-shaped profile; platform on bottom; double handled crank press/churn; one handle on PR and PL sides.		
5	OS-PH	NN	Grinding Wheel with Stand	Grinding wheel with stand, wood four-legged table with opening an upper center surface for stone disc grindstone on central metal axle engraved "44", wood is painted green.		
6	OS-PH	1968.0108.0001	Grinding Wheel	Grindstone, grinding wheel disc, stone, concrete, round, square hole in center.		
8	OS-PH	1968.0216.0001 A,B	Poultry Brooder	Poultry brooder, a) base and b) lid; base is circular with one flat side, body is cylindrical and tapered at the bottom, vertical ribs around walls on exterior, lid is round with three openings, one with a hinged lid, embossed "No 5 / RB18", top rim of base is embossed and reads "January 8 1918 Pat Pending", flat side of round base has hinged door with embossed lettering on front, reads "Royal / Coal-Burning Brooder / Patented / Royal Manufacturing Co / Toledo Ohio".	Surrey	

No.	Location	Accession No.	Object	Description	Provenance	Image
9	OS-PH	1968.0221.0001	Cultivator	Cultivator, garden; single wheel, metal wheel and blades and wooden body, 6 spokes on PR and PL side of axle, 12 spokes total, each blade is triangular with outer side bent upwards, inverted U-shaped connecting bar sits behind wheel and connects two small platforms on which the body is attached, PL platform is embossed "Iron", PR platform is embossed "Age", body is wooden and painted green, arms are rectangular, handles our flag shaped, round cylindrical wooden dowel connects upper portion of arms.	Surrey	
11	OS-PH	1968.0315.0001	3 Crosscut Saws	Double handled with a handle on each side, handles are vertical dowels made of wood		
12	OS-PH	1969.0048.0001 A-WWW	Blacksmith Table	Blacksmith table forge; iron, black, rectangular table, missing one leg in corner, funnel shaped hole on top surface to one side, 3 legs with feet bent outwards, vertical wheel under table surface with 5 S-shaped spokes, white braided cotton flat belt loose under table surface, embossed underneath "477".		
14	OS-PH	1971.0059.0001	Cultivator	Garden cultivator, all metal, dual wheels, five spokes on each wheel, three blades that are C-shaped and have ovular metal pads on the tips, two handles with downward-pointing handholds, handles are connected by a horizontal metal rod.		

No.	Location	Accession No.	Object	Description	Provenance	Image
16	OS-PH	1972.0773.0001	Stove Board	Stove board, Square shaped with rounded corners, slatted wood with black stenciled printing that reads "Stove Boards The Sheet Metal Products Co of Canada Limited 24x24 SMP Quality Trademark Pattern".		
18	OS-PH	1973.0133.0001	Grinding Wheel	Grindstone, grinding wheel, stone disc, concrete, thick, wooden dowel through center.		
19	OS-PH	1973.0139.0001	Cultivator	Garden cultivator, all metal, dual wheels on single axle with four spokes, 2 long metal handles with slightly arched handholds connected by horizontal bar, no blades behind wheels but an H-shaped bracket is there. Tag says "39-73"		
20	OS-PH	1974.0123.0001	Lawn Mower	Lawn mower, manual, wooden body with T-shaped handlebar, horizontal metal cylindrical axis surrounded in 5 blades that are twisted diagonally around axle, wood cylindrical roller dowel in front, metal wheel on PR and PL side each with five spokes, embossed lettering on Wheel reads " the Eureka planter Co Canada speedy ", front of body has black stenciled printing that reads " David Spencer Limited ", red oval sticker on front body read " made in Canada / repairs always available ".		

No.	Location	Accession No.	Object	Description	Provenance	Image
21	OS-PH	1976.0175.0001	Sawmill Equipment	Brownsville Sawmill Equipment; original equipment made by Allard Engineering in New Westminster and installed from 1942 until 1976. Brownsville Sawmill was bought by Capilano Timber Company Limited. a) Engine; 720 motor; direct drive; max R.P.M. around 300; b) Friction drive; with friction head; steel; large; round wheel on axle; 6 wide double-layered spokes from central wheel hub; wheel surface consists of two parallel iron flat metal tires which are bent inward in the center where they meet the ends of the spokes on the interior side of the wheel surface; central axis is a cylindrical metal piece which has a larger cylindrical shaped piece which consists of tightly stacked circular brown-black paper-like discs (composite friction board); used with 8" belt; out of use by the 1950s; could take different size bushings; slide box would fit end. c) Spur Gear, or Bull Gear, cast iron; with drive sprocket; "for 78 chain"; large gear on metal cylinder axle with disc on one end that has C-shaped notches, middle of cylinder has large circular gear with six spokes. d) Face wheel, cylindrical metal axle, one side has large metal wheel with 6 large spokes, wheel surface is flat, beside wheel is black notched pinion gear that is much smaller.	Surrey / New Westminster	
22	OS-PH	1979.0051.0001 A,B	Lawn mower	Lawn mower, a) motorized cutter; four wheels, rear wheels are parallel, PR front wheel is set back and PL front wheel is set forward, circular unit on top that is painted red and reads "Iron Horse", lower rectangular unit is metal and painted green, embossed lettering on rear reads "lawn - boy", front PR corner reads "Caution", circular metal plate on central front reads "Model / 8 EH 1 lb / Engine No On / Gas Tank / Strap", embossed lettering along front edge reads "Keep hands and feet from under machine", red metal cylindrical gas tank secured to square unit on top at rear. b) Handles to lawn mower, two straight cylindrical metal bars painted green and fastened together with wrapped metal wire at center, upper two poles bend apart as T-shaped handlebar covered in black rubber, lower two poles pend apart in a V-shape, lower tops are flattened and have a hole through it where reel blade attaches.		
23	OS-PH	1980.0073.0001	Pitchfork	Hay fork, 3 prong metal end with a long, cylindrical wooden handle, used to load cut hay into a wagon. Wooden handle with steel tines.		
24	OS-PH	1987.0184.0001	Blacksmith Forge	Blacksmith Forge, cast iron, corroded with orange rusty film, four legs with bent feet outward, legs are attached by a support, top surface is a bowl with a flat bottom and a hole in the center, the bowl has a large crack from the central hole to the outer wall, vertical wheel spins on horizontal bar and the wheel has 5 S-shaped spokes, crescent shaped gear cog with notches and 3 spokes interacts with round gear cog on same horizontal bar. Wood rectangular bar with rounded hand grip at end is attached to bowl by metal bracket.		

No.	Location	Accession No.	Object	Description	Provenance	Image
25	OS-PH	2004.0039.0008	Wagon Wheel Tire	Large metal wagon wheel tire; round flat ring; from the Matthews farm.	Surrey	
26	OS-PH	2004.0039.0009 a,b	Sleigh Runners	Two sleigh runners; metal skids; long flat metal bars with upturned tips		
28	OS-PH	NN	Grain Drill Bar	Grain drill bar; attached to grain driller; long rectangular prism, wood with flip open lid on three hinges, painted red, lid has metal plating over opening edge, tapered metal arms extend from bottom, 10 arms, inside is hollow with two wooden dividing walls.		
32	OS-PH	NN	Unknown	Unknown item, possibly a pump piece, blimp shaped ovoid and hollow, heavy metal tank, square base with cylindrical hole in the center and 4 screw holes on each corner, round opening on one side of ovoid.		

No.	Location	Accession No.	Object	Description	Provenance	Image
33	OS-PH	NN	Wagon Wheel Axles	Three axles, look like cast iron metal legs filled with wood that is disintegrating, hexagonal metal feet.		
35	OS-PH	NN	Cultivator	Cultivator, all metal, painted red, black rubber handle bar covers, large wheel with six spokes, wheel surface is flat, single triangular blade, horizontal flat metal bar connects upper portion of body arms.		
36	OS-PH	NN	Barrel Rings	Barrel Rings, metal, flat, 4 pieces of similar circumference.		
37	OS-PH	NN	Tide Board	Long rectangular wooden bar painted red with black carved numbers at measured markings, used to show water level, block printing alongside reads " W.M.L. ".		

No.	Location	Accession No.	Object	Description	Provenance	Image
39	OS-PH	NN	Boiler	Boiler; vertical cylinder; galvanized steel; painted on back "Mr. Holland"; front is stamped, reads: "DOMINION / TESTED / AND / GUARANTEED / TORONTO / HARDWARE / MFG. CO. / THE T. L. PECK CO. LIMITED / VANCOUVER / B.C. / GUARANTEED FOR / 85 LBS WORKING PRESSURE".	Surrey / Vancouver	
40	OS-PH	NN	Cultivator	Cultivator, metal wheel with spokes on both sides, wheel has a flat surface, two metal blades triangular shaped at bottom, two wooden handles, joined by bar at top, printing on inside of each handle, reads "Planet Junior Planet Jr. Made in the / United States / of America 4 or 25 seeder - All Wheel holes", each handle is labeled left and right.		
41	OS-PH	NN	Track Section	Two rail tracks, rusted, full size, long		
42	OS-PH	NN	Track Section	Rail track, two, thin, iron.		

No.	Location	Accession No.	Object	Description	Provenance	Image
46	OS-PH	OF480	Press	Press, black, threaded vertical pole with square base with one hole on each of the four corners, solid round top.		
47	OS-PH	OF481	Press	Press, black, threaded vertical pole with square base with one hole on each of the four corners, solid round top.		
48	OS-PH	OF482	Press	Press, black, threaded vertical pole with square base with one hole on each of the four corners, solid round top.		
50	OS-PH	OF629	Cultivator	Cultivator, garden; all metal, dual wheel, 6 S-shaped spokes on each wheel, flat wheel surface, wheels are parallel on single axle, body is V-shaped with two parallel cylindrical black metal bars connected at top by cylindrical black metal bar that is horizontal and wrapped in heavily corroding metal wire, handles are bent downward at upper tip and have hollow ends, three blades are C-shaped with ovular metal pads on tips.		

No.	Location	Accession No.	Object	Description	Provenance	Image
51	OS-PH	OF630	Cultivator	Cultivator, garden; ribbed rubber wheel with 5 ribs along circumference, spokeless but has red metal plate or hub, metal triangular plate holds 3 C-shaped blades with arrowhead-shaped tips, body consists of two parallel black cylindrical metal bars that meet at a perpendicular black cylindrical bar at top with rubber handles at tips.		
52	OS-PH	OF631	Cultivator	Cultivator, garden; metal wheels and blades with wooden long arm handles, 6 metal spokes, wheel is brown, metal bottom platform is embossed with lettering " Planet / Jr ", two flat triangular blades underneath, long wooden handle arms are rectangular and connected near top with rounded cylindrical dowel, handles at upper tips are flag shaped, there is residual green paint and clear varnish on the wooden arms, the flat metal arms that hold the wheel are painted yellow.		
53	OS-PH	OF633	Cultivator	Cultivator, garden; wooden handles and metal wheel, 6 spokes on wheel, wheel surface is flat, long wooden handles are rectangular shaped and are connected at top with round wooden dowel, handholds are flag shaped, metal bracket is painted green or has green corrosion, bracket is embossed with lettering " Planet / Jr. ", two blades underneath are triangular and metal.		
55	OS-PH	OF635	Cultivator	Garden cultivator, very rustic, single metal wheel, 6 spokes, 3 C-shaped blades with pointed trapezoidal tips, handles are long and rectangular and made of wood, twisted wire connects two handles and holds spare blades of a different style, two stacked metal stars are attached to outer PR handle and spin, one with three points and one with six points, embossed lettering on metal bracket that holds bottom blades reads " Planet Jr / USA ".		

No.	Location	Accession No.	Object	Description	Provenance	Image
56	OS-PH	OF638	Seeder	Seeder; wood handles; dual wheels with chain connection; upside-down U-shape bar just behind front wheel; front wheel is metal with eight spokes; oval metal canister with double hinged lid, hinges are across middle of canister opening so that only half of the lid opens; embossed on lid is: "HD HUDSON MFG. CO. / USA"		
58	OS-PH	OF641	Box Of Coal	Box of coal, rectangular wooden tray filled with coal pieces, Tray has two legs that are diagonal with the feet landing inward, the wooden tray has an opening on one of the short walled sides.		
59	OS-PH	OF657	Bed Frame	Bed frame, child's, wooden, brown-red color, four legs, four walls, two supporting wooden bars at lower head and foot.		
61	OS-PH	OF662	Engine Skid	Sawmill engine skid, multiple use, wood, rectangular, two handles on each side, slatted, raised platform on one side with iron bracket with embossed lettering, reads "PAT PEND"		

No.	Location	Accession No.	Object	Description	Provenance	Image
62	OS-PH	OF663	Grinding Wheel	Grinding wheel, large grey disk with rough surface, tagged 23-15.		
64	OS-PH	OF669	Drag Scraper	Horse-drawn drag scraper, tagged "horse drawn grader", large square shovel scoop made of iron, painted black, two square-shaped long handlebars ending in tapered carved hand holds, painted black, triangular iron bracket attached to PR and PL side of shovel tip, Top of triangle point has iron loop for attaching to horse.		
65	OS-PH	OF670	Brush Hog	Brush hog, brush cutter, round, slightly convex top with short square metal tower in upper center with perpendicular pipe that ends in a circular unit surrounded in 6 bolts that have metal springs around the threading, two sides of the circular lid are flat with arc shaped metal skid bars secured underneath with the bent tips facing upward. Whole lid has residual red paint. Underneath and inside is a singular blade on a central axis that extends the diameter of the object.		
67	OS-PH	OF672	Corn harvester	Push-style corn harvester; red; wood; large central wheel in front with eight spokes; around hub; two long wood handles extend back from wheel hub; chevron shape chopping blade on PL side of wheel.		

No.	Location	Accession No.	Object	Description	Provenance	Image
69	OS-PH	OF674	Hay Hook	Hay hooks, set of four attached by chains, chains attached to triangular iron bar with loop on top and sides have embossed lettering which reads " Iron Claw Louden 1481 2045 ", hooks are shaped like narrow boomerangs.		
70	OS-PH	OF676	Lawn Mower	Manual lawn mower, central body is rectangular wooden bar with t-shaped handlebar horizontal at top, stenciled black lettering along body reads " oil often Eaton's Garden Grove ", three parallel wooden soda-can shaped cylinders roll along bottom, wheels on right and left side have notched surface and embossed lettering on outer face reads " made in England ", 5 horizontal blades surround a central horizontal cylinder and are diagonal to the cylinder.		
71	OS-PH	OF682	Drill Jig	Drill jig, wooden rectangular base, two perpendicular wooden walls on one side of the base contain for drills with rubber belts on each axle, belts are attached to lower axle which is in turn attached by a belt to a block cylindrical motor on the other half of the wooden base.		
73	OS-PH	OF684	Cultivator Blade	Cultivator blade, hexagonal cylinder axle, heavy metal, 4 stacked equal armed crosses of metal strung through centre onto axle, tips of each arm are bent with two bent upwards and two bent downwards.		

No.	Location	Accession No.	Object	Description	Provenance	Image
75	OS-PH	OF688	Grinding Wheel	Grinding wheel, disc shaped stone with rough surface with axle through centre, one side of axle has a L-shaped handle bar with a hand grip.		
76	OS-PH	OF695	Cultivator	Garden cultivator, metal wheel and blades with wooden handles which have reinforced steel handholds, wheel has flat surface, spokes meet an inner center of wheel surface and come from both sides of the axle, 8 spokes on each side, 16 spokes total, 4 C-shaped blades, one blade ends in a triangular shape and the other three do not have a point, PL foot platform reads " iron " PR foot platform reads " age ", long wooden handles are rectangular and are connected at the top with a cylindrical wooden dowel, tops of handles have handmade steel handholds bolted onto the outer sides of the handles.		
77	OS-PH	OF696	Pump Part	Pump part, metal, painted green, two parallel L-shaped bars connected by Central rectangular unit with drain through the center perpendicular with bar, small copper alloy plate with printing reads " pump switch / type S40 / sampsel time control Inc / Spring Valley Illinois USA ".		
79	OS-PH	OF698	Tiller Accessory Attachment	Tiller attachment, metal column consists of two arms each with a red round rotary tiller on its end and a curved hook on it's inside end, there are four curved hooks, these are all attached to a central axis that pivots from side to side, these are attached to two L-shaped bars that extend towards the rear.		

No.	Location	Accession No.	Object	Description	Provenance	Image
82	OS-PH	OF702	Tiller	Tiller, metal and wood, painted red, embossed on PR side "Gravely Motor Plow and Cultivator Co / Dunbar WVA / PAT Dec 5 1916", metal plate on top front, reads "The Gravely Gravely Motor Plow and Cultivator Co Dunbar WVA", 2 oil caps on top with threaded closure, cylindrical filter on PL side, two wooden handles on rear, Front Bottom is a tiller wheel.		
83	OS-PH	OF704	Cultivator	Cultivator, metal, black rubber handle caps, 8 spokes on Wheel, 2 curved hooks, painted green-yellow but rusted.		
84	OS-PH	OF705	Handcart	Hand cart or barrow, painted black, wooden frame and handles with metal attachments, 2 solid wood wheel discs in front, threaded axle goes across cart from wheel to wheel, top front is upward-pointing metal hook on both PR and PL side, two flat triangular plates on each side of front of cart, rectangular wooden bar connects PR and PL arms and is carved and tapered in the middle, metal feet or cart stand on PR and PL side under central horizontal wooden bar consisting of three metal bars in a triangular prism shape with point on floor, handlebars are carved and rustic.		
85	OS-PH	OF707	Rototiller	Roto tiller, motorized, metal, painted red, two cylindrical handles with ribbed rubber black handle grips and spherical wooden tips, front has metal Grill, top has gas cap, t-shaped oil cap on PR side, rubber tires on metal wheels, tires are embossed with lettering reading " Goodyear ", C-shaped blades are attached to coils which are in turn attached to a horizontal cylindrical axle which spins, adjustable arc-shaped metal piece on rear blade axle which has holes on its sides to adjust a pin.		

No.	Location	Accession No.	Object	Description	Provenance	Image
86	OS-PH	OF708	Irrigation Pump	Irrigation pump, all metal, mostly iron, painted Gray, oval copper alloy plaque on one side has embossed lettering that reads " pumps and power limited / pump manufacturers / Machinery dealers / Vancouver BC ", upper half of machine has vertical Gear with 6 spokes, gear notches are covered in flat metal sheet painted Gray, Central upper unit has two silver color caps that are each engraved with lettering that reads "Nathan manufacturing Co New York one ounce", these are attached to a wide disc, whole central unit contains an axle on which a large wheel rests on the opposite side to the Gear, large wheel has 6 spokes and flat surface, lower half of unit has large pipe extending outward parallel with gear and wheel.	Vancouver	
87	OS-PH	OF710	Shipping Crate	Box, wooden, unpainted, rectangular, marked 45 on front, finger hole on front.		
88	OS-PH	OF716	Unknown Pottery	Possibly a Flour Mill, main pot has a wide base and tapered neck, no floor, flared top with fluted collar, 3 protruding C-shaped pieces around neck		
89	OS-PH	OF717	Unknown Pottery	Possible lid to OF716; ceramic terracotta, round, flat outer edges, domed top with diagonal fluted sunburst pattern around centre.		

No.	Location	Accession No.	Object	Description	Provenance	Image
90	OS-PH	OF719	Grinding Wheel And Crank	Small grinding wheel made of concrete, grinding edge is tapered, disc has metal crank through centre.		
91	OS-PH	OF720	Plough Disks	Round, metal, convex, one square hole in centre and four square holes around it.		
92	OS-PH	OF721	Hand Crank	Hand crank with unknown purpose, S-shaped crank with cylindrical attachment piece, there is a switch on the cylinder, handlebar sleeve spins, whole thing is painted brown-red, cylinder is embossed "27BK".		
93	OS-PH	OF722	Unknown Pottery	Possible lid to OF716; ceramic terracotta, round, flat outer edges, domed top with diagonal fluted sunburst pattern around centre.		

No.	Location	Accession No.	Object	Description	Provenance	Image
94	OS-PH	OF726	Cultivator	Cultivator, iron wheel on wooden handles painted green, two black Iron blades on bottom engraved on each side with lettering that reads "Planet Jr / 4062", and Boston bottom of blades "USA"		
95	OS-PH	OF727	Cultivator	Cultivator, all metal, dual wheels not connected by axle, two metal flat trapezoidal shaped blades, one is smaller than the other, 2 long metal cylindrical handlebars, one of which is broken 2/3 up, handles are connected by two flat bars that are curved and cross as an X shape.		
96	OS-PH	OF730	Cultivator	Cultivator, manual, one handle missing, existing handle is on PL side, handle is wood painted Gray, single wheel at front has six spokes and has flat surface, 4 c-shaped blades on lower front made of iron.		
97	OS-PH	OF735	Pump	Pump, metal, rectangular prism body set on rectangular table with 4 L-shaped legs and flared feet with screw hole in each foot, large round wheel on PR side with six spokes, black cylinder canister on top, spring between body and wheel, back has L shaped pipe with two light bulb shaped containers at tops of pipes.		

No.	Location	Accession No.	Object	Description	Provenance	Image
98	OS-PH	OF735	Ring	Metal ring, flat inner side and convex outer side, metal, rusted.		
100	OS-PH	OF739	Garden Roller	Lawn roller, metal piping connected into a rectangular shape, one long side holds large solid cement or concrete cylinder, pipes are rusted but joints appear grey colour metal, embossment on corner joint reads "CRANE " other joint on opposite corner reads "G".		
101	OS-PH	OF741	Cultivator	Garden cultivator, all metal, painted black with brown visible underneath, dual wheels with 5 S-shaped spokes per wheel, two blades perpendicular to C shaped arms, blades are triangular with outer tips bent upwards, handles are long and cylindrical and handholds are bent 90 degrees from body, handles are connected by a metal rod, bottom of handles are connected to blade arms with a flat rod with a U-shaped bend in the middle.		
102	OS-PH	OF744	Cultivator	Cultivator, all metal, dual wheel with 6 S-shaped spokes on each wheel, flat metal wheel surface, wheel is embossed "X29", cultivator has 5 C-shaped blades arranged in a V-formation each with an ovular metal pad, one blade is turned to the side, wheels are on single horizontal axle, body is generally V-shaped, arms are cylindrical metal and are bent downward at the top to form handles, upper portion of arms are connected by metal rod, residual gold sticker on outer PL arm just below rod.		

No.	Location	Accession No.	Object	Description	Provenance	Image
103	OS-PH	OS33	Hay Carrier	Hay carrier, iron, black, u-shaped, tips of you have perpendicular triangular points, bent portion of U shape has perpendicular arm in centre talked with two loops, concentric bent metal bar parallel with main bend in U shape, centre of that bar has a parallel bar that ends with a ovular hole beside a circular hole.		
104	OS-NA	OS39	Cutter, Ensilage	Wood, unpainted, side reads: "EAGLE ... CUTTER"		
107	OS-NA	1968.0220.0001	Fragment, Wood	Barrel lid; thick wood; carved handle on top nailed down with three nails on each side; made of four parallel slats; edges are tapered inward at lower end; hole in one slat.		
108	HSF-PB.s	NN	Barrel Lid	Barrel lid, slatted wood, round, flat, black painted lettering reads " R. Hood / 513 Queens / New Westminster / B. C. Canada / "dishes" ". Twisted wire wrapped around circumference.	New Westminster	

No.	Location	Accession No.	Object	Description	Provenance	Image
109	HSF-PB.s	NN	Pedal-powered Grinding Wheel	Pedal-powered grinding wheel, red metal seat on red wood and unpainted metal body, chain on large lower gear attaches to small upper gear, small grinding stone, PR side has upper wheel with six spokes.		
111	HSF-PB.s	1968.0222.0001	Seeder	Seeder, V-shaped wooden arms with horizontal wooden dowel attaching each side at upper portion, D-shaped handlebars with wooden dowel hand grips and metal frame, rear wheel has snowflake spokes which is 6 scallops in a roughly circular shape with a spoke on each scallop arc and a spoke between each scallop on the outside, two front wheels parallel on single axle, each wheel has 6 S-shaped spokes, rectangular bracket extends from outer axle of rear wheel around front wheels, lidded cylinder in the center for holding seeds, black lettering on outer PR arm reads " Eureka ", PL outer arm is too faded to be legible.	Surrey	
112	HSF-PB.s	NN	Attachment For Tractor	Tractor attachment, folded metal bar, when end of bar is L-shaped, other end of bar has spring followed by two prong hay Fork.		
113	HSF-PB.s	NN	Chair	Chair, four legs, upside-down u shaped backrest with two concentric u-shaped bars, backrest bars extend to legs, inner u-shaped backrest bar extends two front legs and outer u-shaped backrest bar extends to rear legs, seat is round with circular perforations throughout, residual white plastic on seat, feet have white plastic foot covers.		

No.	Location	Accession No.	Object	Description	Provenance	Image
114	HSF-PB.s	NN	Cultivator	Cultivator, all metal except for PL which is screwed into Metal Arm , PR handle is missing, v-shaped metal arms connected by horizontal metal bar at top, bottom of arms attaches to straight metal bar from forward to rear which holds a hand lever, front of bar is a oval Hub with a v-shaped extension backwards with 6 hooks on each side, front is single axle with solid metal wheel with y-shaped spokes, 6 spokes all together.		
115	HSF-PB.s	NN	Cultivator	Cultivator, metal wheel and Blades with wooden v-shaped body with flag shaped handles, round wooden dowel across arms at upper side, 3 C shaped blade arms underneath in a triangle formation, each blade has a shovel shaped tip, metal wheel in front on single axle has six spokes, embossed lettering behind wheel Reed's " Planet Junior / USA ", Saint black printing on inner PR arm Reed's " Planet jr. ", black printing on PL inner arm reads Planet jr. Made in the United States of America 4 or 25 Cedar all wheel ? "		
116	HSF-PB.s	NN	Cultivator	Cultivator, maybe handmade, front wheel is all metal on single axle with 8 spokes, v-shaped body is made up of PR and PL arms that are metal pipes, flat horizontal metal bar connects both arms at upper side, notched rectangular flat metal bar connects arms on lower end with perpendicular flat metal bar that leads to a straight rectangular blade.		
117	HSF-PB.s	NN	Cattle bar	Long wooden bar, ovular shape, tapered at each end, beginning of taper has bracket with a round disc pointing downwards with engraved lettering above disc that is illegible		

No.	Location	Accession No.	Object	Description	Provenance	Image
118	HSF-PB.s	NN	Drag Scraper	Horse drawn drag scraper with two handlebars, shaped like large scoop entire thing as metal, all black, chain through bottom stems around into Hooks and		
119	HSF-PB.s	NN	Grinding Wheel	Grinding wheel on stand with hand crank, three legged, one leg is missing of the four, Allwood, legs are roughly carved, platform is rectangular with rectangular hole in the center over which a concrete disk is suspended by an axle, axle attaches hand crank, axle is metal and crank arm is wood, crank has been repaired, original crank arm was metal, metal crank arm is now nailed on to wooden block, handle is a wooden dowel, red plastic coated wire is wrapped around to the right side of the crank, underneath the grinding wheel is a piece of a tire with a laminated piece of fabric on the inner side, black paint drip marks on grinding wheel, wood is Painted Black throughout.		
120	HSF-PB.s	NN	Plowshare	Plowshare?, rustic wooden beam with thick heavy metal triangular frame hanging down and leading to large arrowhead-shaped metal blade, arm is embossed "P84", frame pivots from blade.		
121	HSF-PB.s	NN	Plowshare?	Plowshare?, handmade, what would inside with triangular sheet metal piece bolted on, metal point with metal handle bar extending backwards with metal wing on one side of the handlebar, wooden frame has rectangular hole in Center, engraved lettering on metal point reads " H - 846 ". Long metal curved Rod extends from rear. Underside of handle is engraved " U 645 "		

No.	Location	Accession No.	Object	Description	Provenance	Image
122	HSF-PB.s	NN	Rake	Rake, long straight wooden cylindrical body with metal cap that holds rake head, rake head is metal and shaped like a closed curly bracket, a long straight edge has perpendicular teeth, 14 teeth total		
123	HSF-PB.s	NN	Rods	Three metal rods, first Rod is thick cylindrical solid shape with tapered bottom tapered and stepped bottom, second Rod is long solid cylindrical shape with tapered or pointed bottom, 3rd rod is bowed and one end is an L-shaped and the other end looks like it plugs into something		
131	HSF-PB.s	NN	Scythe	Scythe, long wooden cylindrical shaped handle with tapered lower tip, handle is bent in the middle, wooden hand hold dowel attached to inside of handle, blade is attached to Upper handle and is flat metal and arced.		
132	HSF-PB.s	NN	Seeder	Seeder, no handles , two wheels, front wheel has three circular shaped spokes, rear wheel has 6 spokes from both PL and PR side of Hub, 12 spokes total, upside down u-shaped metal bar in front of rear wheel, in front of u-shaped bar is ovular seed Bowl, PL side reads iron , PR side reads age, rear wheel is actually front wheel, Wingnut behind seed bull with labeled Gage reeds beat parts Etc, two blades underneath, one is solid and one moves. Chain from front wheel Gear 2 smaller year besides seed Bowl.		

No.	Location	Accession No.	Object	Description	Provenance	Image
133	HSF-PB.s	NN	Sprayer	Sprayer, single wheel on single axle in front, wheel is all metal with 8 spokes, u-shaped cylindrical bar goes around front wheel and on each side extends backwards into handlebars, handlebars hold suspended galvanized steel canister, inside canister is vertical pipe with metal cylindrical pump handle with black rubber handle grip , in front of canister is horizontal yellow metal canister with a round gauge on top which connect to black rubber tubing.		
134	HSF-PB.s	NN	Jointed Harrow	Jointed harrow; square shaped with three to four horizontal cylinders each with spinning metal pegs or nails, the cylinders spend like axles and the pigs are stationary		
135	HSF-PB.s	NN	Axle	Three axles; wood; iron sleeves		
136	HSF-PB.w	1991.0026.0001	Hay Tedder	Hay Tedder, two-wheeled, metal, perforated seat on upper center front, vertical lever with handbrake on PR side of seat, each wheel has 16 spokes, machine has eight 2-prong hay forks on the back, each with a vertical spring, center of machine has notched gear on horizontal axle, chain connects to larger gear.	Richmond	

No.	Location	Accession No.	Object	Description	Provenance	Image
138	HSF-PB.w	1991.0038.0002	Dump Rake	Dump rake, two wheels, each wheel has 18 spokes, 30 C-shaped hooks that are looped on the top and are positioned side-by-side on the rear horizontal axle, perforated metal seat at upper front centre, vertical flat metal handle on PR side of seat, 6 metal rods point rearwards horizontally from axle.		
139	HSF-PB.w	1991.0038.0003	Mower	Mower, two-wheeled, red, embossed on top with lettering, reads "McCormack / Hamilton / Canada", and "No 6", and "M1411", long rectangular wood center column connects to red metal axle with cross hatching on top, wheels have 6 spoke each, long handlebar extends from PR side, horizontal spring on PR side, lever with hand brake on PR side, horizontal metal rod across front, PR side has vertical hay mower blade with 17 teeth and a wood side wall in the shape of a diamond and painted red.		
140	HSF-PB.w	NN	Cultivator	Cultivator, all metal, blue, V-shaped body; no handles but there are brackets on handlebars that are able to be tightened, rectangular metal rod across upper body, vertical metal lever with squeezing handle break, small wheel in front with 3 circle-shaped spokes, four blades at bottom, two small ovular blades at front with pointed tips and two large leaf shaped blades at rear.		
141	HSF-PB.w	OS78	Cultivator	Cultivator, V-shaped wooden body with cylindrical wooden dowel across upper arms, PR handle is incomplete, front wheel is large and metal with 8 spokes, chevron-shaped blade at bottom. PL arm has a rectangular wooden reinforcement underneath.		

No.	Location	Accession No.	Object	Description	Provenance	Image
145	OS-PH I.12	OF155	Anvil, Shaping	Dark heavy metal; rectangular; five parallel notches at top; hole on one side		
146	OS-PH Box 1	OF121	Attachement, Cultivator	Dark metal; rake-like piece with five prongs; metal ring; bolt attached; oval-shaped ring attached to ring; ring and rake attached with copper wire		
147	OS-PH Box 3	OF295	Auger	Metal pole; two 90 degree angles; screw-end on one side		
148	OS-PH BOX	OF525	Axel Rod	Round metal pole; pinched flat on upper PL and PR sides		

No.	Location	Accession No.	Object	Description	Provenance	Image
149	OS-PH I.22	1962.0513.0001	Axel, Car	Black metal cylinder; cogs on end		
150	OS-PH T	OF110, OF111	Blade, Sythe	Two long flat metal curved blades		
151	OS-PH Box 1 OF6		Blades, Cultivator	Metal diamond-shaped curved blades; perpendicular pole on side		
152	OS-PH Table NN		Bolt Cutter	Long metal handles; "New Easy Bolt Clipper" embossed on side; one screw missing; blades broken		

No.	Location	Accession No.	Object	Description	Provenance	Image
153	OS-PH Desk NN		Bowl	Iron bowl; black; notch on front and back upper edge; black wire handle attached to PL and UR upper edge		
154	OS-PH	OS-169, WD21	Brace, Ratchet	Two rachets: U-shaped metal pole; threaded on one end; clamp with round tightener on other; wood handle at centre		
155	OS-PH I.17	OF580	Bracket	Flat piece metal; three holes; bent at centre		
156	OS-PH I.11	OF115	Broad Axe	Wood handle; two sided axe; "WWW" and "Sage " stamped on blade		

No.	Location	Accession No.	Object	Description	Provenance	Image
157	OS-PH	NN	Bucket, Shell Oil	Yellow plastic bucket; red print reads "Shell Tellus Oil 68 Hydraulic Oil"; metal wire with wood handle at top

176	OS-PH BOX	OF419	Drill Bit	19 Drill Bits: Round metal pole; triangular top; flat on one side of bottom; screw head; pointed protrusion on bottom side; threaded point at bottom		
177	OS-PH BOX	OF495	Drill Bits, Case	8 drill bits, metal; inserted in thin sewn pouches of beige fabric case; snap closure		
178	OS-PH Box 4	OF628	Drill Chuck	Heavy metal; cylindrical vertical handle; rotating hexagonal pole on PR; gear at centre		

No.	Location	Accession No.	Object	Description	Provenance	Image
181	OS-PH	ME1 (OS-175)	Files	Triangular file; metal; marked: "Globe" on lower front; one side of file rounded, one side flat; wood handle.		
182	OS-PH	OS-160, OF116	Files	Two files: Wood handle; triangular metal file		
183	OS-PH Box 4 OF627		Fragment, Metal	Slightly flared handles; small head with two small hexagonal holes; "The National Telephone Supply" stamped on one handle; "N917- - 2 Nicopress Tool" on other handle		
184	OS-PH Box 1 OF541		Gauge, Pressure	Two parallel silver-coloured metal pieces; c-clamp on each side; L-shaped hollow pole at bottom		

No.	Location	Accession No.	Object	Description	Provenance	Image
185	OS-PH I.23	OF36	Gear & Chain Well	Black metal; two hollow pieces on sides; cog at middle curved handle		
186	OS-PH	OF153	Glue Pot	Metal pot with handle; inner cylindrical metal pot with handle sits in centre; white inside		
187	OS-PH Box 9	OF244, OS-142, OS-151	Hammer	Three hammers: Cone shape; heavy metal; flat on one side; oval-shaped hole at centre; wood inside		
188	OS-PH Rollin	OS-86	Hammer, wood	Wooden handle; perpendicular wooden hammer head made of a log, including bark		

No.	Location	Accession No.	Object	Description	Provenance	Image
189	OS-PH Rollin	OS-93	Hammer, wood	Wooden handle; perpendicular wooden hammer head; slightly arched		
190	OS-PH T	OF70	Crank, Handled	Thick metal disk; cylindrical handle on each side		
191	OS-PH I.22	OF41	Hay Elevator Drive	Metal; black; cyliner; two parallel protrusions patered at end; round disk with cog on side		
192	OS-PH I.21, I OF124, OF84, OS-49		Hay Hook	Large u-shaped flat metal; hook on ends; loop at top; horizontal bar near top; lever at centre		

No.	Location	Accession No.	Object	Description	Provenance	Image
193	OS-PH Box 3 OF250		Head, Eye Punch	Heavy metal; tapered on one end; flat on other; rectangular hole inside		
194	OS-PH I.17 OF127		Head, Shovel, Post Hole	Metal shovel head; sides bent up on PL & PR; broken piece wood in end		
195	OS-PH Box 5 OF243, OF245, OF247, OF:		Head, Sledge	Five sledgehammer heads: Rectangular; tapered on each end; round hole at centre		
196	OS-PH Box 3 OF254		Head, Swage	Metal; flat one side; pointed other side; wood through centre hole		

No.	Location	Accession No.	Object	Description	Provenance	Image
197	OS-PH Desk, NN, OF266-8, OS-179, 196:	Heads, Axes		16 ax, hatchet, pickaroon heads		
198	OS-PH P	NN	Heater	Metal cylinder; vertical; painted silver; vertical pipe at top and bottom		
199	OS-PH P	OF83	Heater	Horizontal cylinder; four feet; rubber-coated wire with plug; M-shape frame		
200	OS-PH P	OS-81	Heater	Rectangular; oval-shaped holes overall		

No.	Location	Accession No.	Object	Description	Provenance	Image
201	OS-PH Box 3 OF274, OF86, OS-172, OF1	Hooks		Multiple metal hooks of varying sizes.		
202	OS-PH Table NN		Hook & Pulley	Metal hook attached to two pulley wheels; rectangular wood between wheels		
203	OS-PH I.5	OF99	Hook, Cables	Thick metal loop; metal cable through loop		
204	OS-PH Shelf OF477, OF490, OF543		Hook, Peavy	Three peavy hooks: Hollow metal cone; hook attached to side; "51" embossed on side		

No.	Location	Accession No.	Object	Description	Provenance	Image
205	OS-PH Box 3 OF204		Iron, Soldering	Tapered metal end; hinged pointed end; wood handle; black adhesive tape around handle		
206	OS-PH Box 8 OF32		Jack	Round vertical pole; hook on top; two arms on side with hooks on end; "PAT 3 5 29 No. 1704628" embossed on arm		
207	OS-PH Box 7 OF23		Jack, Car	Rectangular base; rectangular vertical body; lever on side; notched pole on top		
208	OS-PH Box 7 OF26		Jack, Car	Rectangular base; vertical cylindrical body; two toothed gears; square hole on back; "Walker Bacine USA" embossed on side		

No.	Location	Accession No.	Object	Description	Provenance	Image
209	OS-PH I.17	OF28	Jack, Car	Dark metal jack; "Auto Specialties MFG" embossed on handle		
211	OS-PH Box 8	OF31	Jack, Car	Rectangular base; rectangular vertical body; with notches on back; "39 Simplex Templeton Kenly & Co Ltd" embossed on side		
212	OS-PH L	OF39	Jack, Car	Heavy metal; "No. 1" on side; rectangular base; hollow diagonal cylinder		
213	OS-PH Box 8	1962.0168.0001	Jack, Screw	Rectangular base; vertical rectangular body; threaded pole; handle on side; "Ashland 4wx Elite Mfg Co" embossed on handle		

No.	Location	Accession No.	Object	Description	Provenance	Image
214	OS-PH Box 8 OF25		Jack, Screw	Rectangular base; vertical rectangular body; threaded pole; handle on side; "Auto Specialties Mfg Co" embossed on handle		
215	OS-PH Box 8 OF30		Jack, Screw	Rectangular base; vertical rectangular body; threaded pole		
216	OS-PH T, I.1: OF157, OF168, OF170-2		Ladle, Hot Metal	Very long handle (four feet); round bowl at end		
217	OS-PH I.5	OF573	Lawn Edger	Cylindrical pole; small rounded blade at bottom; perpendicular wood handle at top; painted green		

No.	Location	Accession No.	Object	Description	Provenance	Image
218	OS-PH P	OF76	Motor, Electric	Heavy black cylinder; holes overall		
219	OS-PH P	OF77	Motor, Electric	Rectangular flat metal base; black metal horizontal cylinder; fabric-covered wire		
220	OS-PH P	OF78	Motor, Electric	Silver-coloured metal cylinder; plaque reads "Leland Electric Ltd"		
221	OS-PH P	OF79	Motor, Electric	Small black metal motor; multiple wires		

No.	Location	Accession No.	Object	Description	Provenance	Image
223	OS-PH	NN	Patches, Tire	Cardboard box of tire patches; "CAMEL Chembond" with logo of camel on front; red, black, white		
224	OS-PH I.17	OF584	Pin Hinge	Flat piece metal; four long screws		
225	OS-PH I.17	OF585	Pin Hinge	Curved flat piece metal; two screws on end		
226	OS-PH I.20, I	OF164-6, OF187-90, OF192	Pincers	11 pincers: Black metal pincers; long handles		

No.	Location	Accession No.	Object	Description	Provenance	Image
227	OS-PH Box 1	OS-128	Plane, Wood	Simple rectangular piece of wood; hole on upper side; angled and flat blade; "657" stamped on front end		
228	OS-PH Box 1	OS-132	Plane, Wood	Wooden rectangle; light colour; sharp blade inserted diagonally at centre; wood triangle with rounded top along blade; "Sandusky Tool Co" on side; convex bottom		
229	OS-PH Box 1	OS-133	Plane, Wood	Wooden rectangle; light colour; sharp blade inserted diagonally at centre; wood triangle with rounded top along blade; "Sandusky Tool Co" on side; convex bottom		
230	OS-PH Box 1	OS-134	Plane, Wood	Wooden rectangle; sharp blade inserted diagonally at centre; wood triangle with rounded top along blade; "Auburn Tool Co" on side		

No.	Location	Accession No.	Object	Description	Provenance	Image
231	OS-PH Box 1	OS-136	Plane, Wood	Dark wooden rectangle; sharp blade inserted diagonally at centre; wood triangle with rounded top along blade; "J Dawson"; flat bottom		
232	OS-PH Box 1	OS-137	Plane, Wood	Wooden rectangle; sharp blade inserted diagonally at centre; wood triangle with rounded top along blade; "J Dawson Montreal" and "INCH" "10" on side		
233	OS-PH Box 1	OS-137	Plane, Wood	Wooden rectangle; sharp blade inserted diagonally at centre; wood triangle with rounded top along blade; "J Dawson Montreal" and "INCH" on side		
234	OS-PH Box 1	OS-138	Plane, Wood	Wooden rectangle; sharp blade inserted diagonally at centre; wood triangle with rounded top along blade; "J Dawson Montreal" and "INCH" on side		

No.	Location	Accession No.	Object	Description	Provenance	Image
235	OS-PH Box 1	OS-139	Plane, Wood	Wooden rectangle; sharp blade inserted diagonally at centre; wood triangle with rounded top along blade; "J Dawson Montreal" and "INCH" on side		
236	OS-PH Box 1	OS-27	Plane, Wood	Horizontally rectangular piece wood; dark lacquer; wide blade with rounded top inserted diagonally at centre		
237	OS-PH Box 1	OF173, OF616, OF619, OF1	Pliers	Four sets of metal pliers: Long handles; notched and curved jaws; one handle flat at end		
238	OS-PH I.12	OF152	Pot, Glue	Heavy metal container; straight sides; looped handles on top edge		

No.	Location	Accession No.	Object	Description	Provenance	Image
239	OS-PH I.22	OF1	Power Sprayer	Metal cylinder; painted silver; round fabric drum on lower back; two metal poles on lower front		
240	OS-PH	OS-177	Press?	Black metal vertical rectangular piece; hole at centre with vertical metal pole; lever at top; "REX" and "27" embossed on side		
241	OS-PH	OF73	Puller, Log	Hollow cylinder; two sets of hinged hooks; chain; two hooks on end of chain		
242	OS-PH Box 3	OF290	Puller, Weed	Hollow end; four spokes on end; perpendicular handle; "DS CAN PAT JUNE 1919" embossed on side		

No.	Location	Accession No.	Object	Description	Provenance	Image
243	OS-PH Box 4 OF615		Pullers, Nail	Black metal; curved handles; two u-shaped pincers at end; square piece on side of head		
244	OS-PH Table NN		Pulley	Black metal wheel; five spokes; lever with two 90 degree bends; long rectangular metal piece on other side		
245	OS-PH P	OF137	Pump	Silver-coloured metal pipe with handle; long back hose; white coloured metal machinery; large disk with numbers on front in black and red; "Neptune Meter" on front		
246	OS-PH P	OF30	Pump	Black metal box; wire handle; plastic wire; gauge face with numbers		

No.	Location	Accession No.	Object	Description	Provenance	Image
250	OS-PH I.15	OF326	Pump, Water	Head and handle only; painted brown; "55-134 Beatty Bros" embossed on handle		
252	OS-PH Shelf	OF488	Rake	Hollow metal pole; rake head on one end; four prongs bent 90 degrees downward		
254	OS-PH I.22	OF18	Roller, Wallpaper	Wooden cylinder; metal handle; spring		
255	OS-PH BOX	OF522	Ruler, Straight	Silver-coloured metal; rectangular; "5" "Quality Welch Service" and "NE" stamped on side.		

No.	Location	Accession No.	Object	Description	Provenance	Image
256	OS-PH Box 3 OF284		Saw Set	"Saw Set" stamped on side; pointed on each side; rectangular metal piece at centre		
257	OS-PH Box 3 OF286-89, OF561		Saw Set	Five saw sets: Cross-shaped piece of metal; small		
258	OS-PH	FT4	Saw, Crosscut	Crosscut saw, c. 1930, 2 wooden handles at either side, bowed blade on one side with teeth		
259	OS-PH	OF391	Saw, Crosscut	Four foot long blade; one wooden handle		

No.	Location	Accession No.	Object	Description	Provenance	Image
260	OS-PH	OS154	Saw, Crosscut	One-handed saw; rectangular wood handle with hole at centre		
261	OS-PH	OS-120	Saw, Hand	Rectangular metal blade; teeth along lower edge; curved metal handle; brown fabric cord attached		
262	OS-PH	OS-121	Saw, Hand	Thin metal blade; teeth along bottom edge; wooden handle		
263	OS-PH	OS-122	Saw, Hand	Silver-coloured metal saw frame; curved top; handle thatched pattern and "HM" embossed; small fine-toothed saw blade		

No.	Location	Accession No.	Object	Description	Provenance	Image
264	OS-PH	OS-123	Saw, Hand	Black metal saw blade; teeth along lower edge; top edge saw cut diagonally at centre; wood handle painted black; metal disk on side reads "Disston & Sons Philada" with logo at centre		
265	OS-PH	OF387	Saw, Rip	Rip saw blade; 4 ft long; rectangular wooden handle with hole on end; cylindrical wood handle on bottom edge.		
266	OS-PH	OF460	Saw, Rip	Black metal saw blade; two handles		
267	OS-PH	OF10, OF13b, OF14	Saw, Stair	Three stair saws: Dark metal blade; curved; rounded teeth on half of lower edge; two protruding pieces for handles; wood worn		

No.	Location	Accession No.	Object	Description	Provenance	Image
268	OS-PH	NN, OF455, OF392, OF463	Saws, Rip and Crosscut	20 saw blades; 5-10ft long no handles		
269	OS-PH Box 3	OF283	Scoop/Trowel	Two-sided metal tool; cylindrical pole at centre; leaf-shaped flat trowel on one side; oval-shaped scoop on other side; "DOBSON" stamped on towel		
270	OS-PH Rollin	OS-102	Screw, Wood	Large threaded wood pole; rectangular piece of wood at middle		
271	OS-PH Box 4	OF607	Screwdriver	Short screwdriver; wood handle; flat head		

No.	Location	Accession No.	Object	Description	Provenance	Image
272	OS-PH	OF132	Seat, Tractor	Metal tractor seat; manufactured holes overall		
273	OS-PH I.22	OF7	Skid part	Thick black metal piece; flat; end tapered and curved up; loop on end; two bent metal pieces on top		
274	OS-PH Box 9	OF257, OF255, OF256	Sledge	Three sledge hammers: Heavy metal; rectangular; flat on one side; tapered on other side; rustic stick through centre hole		
275	OS-PH I.17	1973.0104.0001	Socket Set?	Black metal base; round metal piece attached to centre; rectangular flat piece on top		

No.	Location	Accession No.	Object	Description	Provenance	Image
276	OS-PH Box 4 OF611		Socket, Extension	Cylindrical pole; square on one side; square hole on other		
277	OS-PH Box 9 OF261		Spike	Metal pole; four-sided; tapered on each side		
278	OS-PH Box 8 OS-12		Spike/Etcher	Metal pole; tapered to point on one end; looped on other		
279	OS-PH I.12	Os-17, OF178, OF180-1, OI	Tongs	12 blacksmithing tongs: Black metal; long round handles; curved top with small piece that meets on side with hinge		

No.	Location	Accession No.	Object	Description	Provenance	Image
280	OS-PH I.17	OF578	Tongs, Ice	Round curved hooks; hinged at top; looped handle at top		
281	OS-PH	1972.0790.003	Tool	Flat metal pole; perpendicular metal piece with hinge; chain attached to end		
282	OS-PH Box 7	OS-10-1, OS-152, SO-155,	Tools, Blacksmithing	Various blacksmithing tools		
283	OS-PH I.11	OF64	Tool Box	Tin rectangular tool box with rounded corners; handle at top with latch		

No.	Location	Accession No.	Object	Description	Provenance	Image
284	OS-PH Box 1 OF193, OF200-1, OF207		Tool, Soldering	Four soldering tools: Metal with diamond shape at top; round wood handle; orange piece of tin wrapped around upper handle secured with nail		
285	OS-PH	OS-182	Tool, Woodworking	Wood handle; leather strap on end; short metal piece on top with screw; "Snell & Atherton" on side		
286	OS-PH P	OF75	Transformer	Metal rectangular box; plaque on back illegible		
287	OS-PH Box 4 1973.0226.0001		Valve Lifter	Silver-coloured metal; two parallel cuved handles with cross piece; "Spring..." on side		

No.	Location	Accession No.	Object	Description	Provenance	Image
289	OS-PH P	OF316	Valve, Pressure	Metal; dark; bulb at top; four legs; vertical pipe at back; three short pipe fittings at lower edge; "SENECA FALLS NY RUMSEY & CO" and image of eagle embossed on top		
291	OS-PH Shelf	OF272	Wedge	Rough metal; large; flat; pointed on one end		
292	OS-PH Box 1	OF341, OF347-8, OF350, C	Wedge, Splitting	Seven splitting wedges: Long rectangular piece metal; flat blade one side; rectangular flat hitting surface on other		
293	OS-PH I.22	OF2	Weight	"Barbel + Weider 3 Lbs" embossed on front; round disk; red; hole at centre		

No.	Location	Accession No.	Object	Description	Provenance	Image
294	OS-PH Box 1 FU2		Wheel, Pulley	Heavy metal disk; threaded hole at centre; rim concave		
295	OS-PH Box 4 OF621		Wire Strippers	Silver-coloured metal; curved handles; flat long head at centre; small blades on head side; thatched pattern on handles		
296	OS-PH Box 6 OF217		Wrench	Flat rounded handle; u-shaped head; "STAHWILLE STABIL" stamped on handle		
297	OS-PH Box 1 OF235		Wrench	Flat; black metal; octagonal hole on one end		

No.	Location	Accession No.	Object	Description	Provenance	Image
298	OS-PH I.15	OF303	Wrench	Flat metal; six-sided hole on one end; notch on other end		
299	OS-PH Box 4	OF614	Wrench, 3-socket	T-shaped pipe with square hollow piece on eah end		
300	OS-PH Box 1	OF225b	Wrench, Alligator	Flat metal; notched open faws on each side; three holes at centre; "THE HAWK" on back		
301	OS-PH Box 1	OF416	Wrench, Alligator	Large; flat; elongated open jaws on each end with notches on one side of jaw; "TWIN" "W&B" and "MADE IN USA" on side		

No.	Location	Accession No.	Object	Description	Provenance	Image
302	OS-PH Box 5 OF408		Wrench, Box	Flat oval shape; four geometric holes		
303	OS-PH Box 1 OF413		Wrench, Cultivator	Flat, metal; raised edges; open jaws on one end; square hole on other end; "Standard" on side		
304	OS-PH Box 1 OF228		Wrench, Machine	Black metal; flat with raised edges; open jaws on each end; open jaws cut out on lower edge; "LC322" on side		
305	OS-PH Box 1 OF236		Wrench, Machine	Flat metal; curved body; open jaws on one end; four points and one round flat surface on other end; hexagonal hole; "COPP BROS COL'D" and "HAMILTON" on side		

No.	Location	Accession No.	Object	Description	Provenance	Image
306	OS-PH Box 1 OF239		Wrench, Machine	Four-sided metal pole; hollow square on bottom end; y-shape on top; hexagonal hole on upper centre		
307	OS-PH I.15, I OF308-10, OF590-3, OF596		Wrench, Monkey	11 metal monkey wrenchs, estimated 1930		
308	OS-PH BOX OF589		Wrench, Monkey	Small; wood handle; threaded pole under jaws; "Made in Canada" embossed on upper side		
309	OS-PH BOX OF596		Wrench, Monkey	Large; wood handle; threaded pole under jaws; "Made in Canada" embossed on top		

No.	Location	Accession No.	Object	Description	Provenance	Image
310	OS-PH BOX	OF599	Wrench, Monkey	Flat metal handle; threaded pole under jaws; rounded top; "MADE IN USA" and "AUTO" embossed on side; paint flaking		
311	OS-PH Box 1	1973.0456.0001, OF212-3,	Wrench, Open	48 metal open-jaw wrenches: Flat metal; open jaws on each side curved
