O 1977.110.1a-b Can, Trash 	Expanded wire mesh waste basket with removable bottom: a) circular basket which tapers to a narrow base, top and bottom feature metal rims; green oval metal plate reads in yellow stenciled letters: "CITY OF / NORTH / VANCOUVER"; b) expanded wire mesh removable bottom with metal rim.	Fair	OK	Warehouse
O 1977.149.3 Table, Side 	Three legged wooden table with Walnut veneer: semi-circular table top, curved beveled edge; turned legs, "T" bracing.	Fair	OK	Warehouse

Catalog / Objectid / Objname	Description	Condition	Status	Home Location
O 1978.62.1 Lathe, Metalworking 	Large, cast iron and steel metalworking lathe. The lathe bed measures 132cm and the swing 14cm. Remnants of black and white paint.	Fair	OK	Warehouse
O 1978.93.35 Switchboard, Telephone 	"NORTHERN ELECTRIC" telephone switchboard mounted on a plywood board with instructions and information labels. Switchboard has a dark oak case with a black, plastic telephone receiver above switchboard bank. Ten cords (red, white and green) with metal weights are hanging from the underside and a length of blue and yellow wire is wrapped around the board. KEEP AS POSSIBLE PROP FOR NEW MUSEUM	Fair	DEACCESSIONED	Warehouse
O 1979.71.1a-b Slicer, Cheese 	One large commercial cheese slicer. The slicer sits on a large round metal base with a round wooden cutting board (b) placed on top. A large cutting arm made up of a large squared blade attached to an "L" shaped handle is hinged to the base. A lever on the side of the base turns the cutting board.	Fair	DEACCESSIONED	Warehouse
O 1981.57.2 a-b Recorder, Sound 	Black Dictaphone machine with black metal stand on wheels and electrical cord: a) rectangular base dictaphone with lift up cover to change recording cylinders, attached to recording mechanism is a metal coil tube with a black horn-shaped microphone that rests on two supports on left side; small tray attached bellow cylinder has clip and holds a pad of recording record forms (not individually numbered); on back electrical connector plug centre bottom; bottom is covered with green felt; this device sits on a tall rectangular base (not individually numbered) with four wheeled legs that extend out a 45 degrees from the corners; inside base, centre front a black cylinder; possibly a cover of some sort closed the front of stand, not found with object; b) black plastic electrical cord has rectangular power plug on one end and a round dedicated female plug on the other.	Fair	OK	Warehouse

Catalog / Objectid / Objname	Description	Condition	Status	Home Location
O 1982.11.2a-c Icebox 	Large cylindrical shape set on casters covered by large metal claw type feet, easily moved, white finish over metal, finish appears to be a second coat over previous and has covered printed name over door (barely visible traces), has round top lid which lifts upward on 2 brass decorative hinges, front door has same hinges and a locking level to open; interior is divided into two by a metal plate with hole in centre and two wire racks are installed on rotating frame on bottom chamber (currently not properly fitted); manufacturer's use instruction label adhered inside top lid.	Fair	OK	Warehouse
O 1982.35.6a-d Bell 	a) Cast iron bell, painted silver. Metal clapper attached to threaded rod which is painted blue. b) Cast iron yoke section in the shape of a 'M', painted black with inscription reading "No. 22 YOKE/ THE C.S. BELL CO. 22 HILLSBORO. O.". Yoke pivots and sits loose in frame. There is a small, notched disc on the PR arm and a large wheel which attaches to the top (currently loose). c) Cast iron, 'A' frame with two base tracks. d) Large, varnished, fir log base with inscription painted in white "ORIGINAL/ NORTH STAR BELL/ 1916".	Fair	DEACCESSION ED	Warehouse
O 1982.42.1 Carriage 	A doll buggy with metal body and pleather brown carriage. There is a black metal handle with wooden bar grip. There are four small wire spoke wheels and metal wire under carriage. No hood.	Fair	OK	Warehouse
O 1983.63.1 Wheel, Vehicle 	Two sets of train axle and wheels: each of the four wheels is embossed inside with manufacturer's name; wheels centred on axis with a distance of 55 cm. between them.	Fair	DEACCESSION ED	Warehouse

Catalog / Objectid / Objname	Description	Condition	Status	Home Location
O 1984.44.26 Lamp, Floor 	Floor lamp with shade. a) Lamp stand has a decorative cast iron base with bronze finish and power cable attached, turned, dark, varnished wood post with a gold-toned metal section at the top and double bulb socket with chain pulls. Attached to one chain pull is a blue, white and pink Chinese-style tassle. b) Octagonal shade lined with pink silk with alternating panels of gathered brown chiffon with central rosette and metallic thread tassels and pink floral devore velvet. The borders are stitched with metallic braid and the bottom edge has a glass beaded fringe. c) Copper-toned metal ferrule.	Fair	OK	Warehouse
O 1984.52.1a-b Hydrant 	Fire hydrant with valve mechanism: a) hydrant- red & white; 2 capped side connectors, reads " Pat'd July 16, 1901"; b) clapper valve; valve mechanism, formed by two worm gears and adjusting round stopper with rubber gasket, fitted on one end of square metal rod, bottom end has thick rubber cap, fits inside hydrant.	Fair		Warehouse
O 1985.25.1 Stand, Plant 	Wooden plant stand with round wooden basket at top with slightly curved vertical bars and a solid ring around the top edge. Four barley-twist legs and an X-shaped base with four scroll-shaped feet.	Fair	OK	Warehouse
O 1986.40.1 Sluice 	Wooden construction; long rectangular rocker box sits on wooden frame: one end has box that holds a double frame (b) with perforated metal bases (2 sieves not numbered individually) other end is open and five wooden components can be fitted to form the sluice under sieve box and extending into the open end; metal bands reinforce rockers; sluice box sits on stand.	Fair	OK	Warehouse

Catalog / Objectid / Objname	Description	Condition	Status	Home Location
O 1986.41.1 a-b Hydrant 	a) Ludlow Red Fire Hydrant: long post hydrant, remnants of red and white paint, has two hook-ups for hoses up front, caps still in place; hydrant has fluted sides, rest of pedestal is smooth, round base with four holes to affix to floor; b) hydrant valve: long piece metal rod with threaded copper rod fitted on one end, valve mechanism attached to threaded section of rod, underside of valve has red rubber gasket holding cementitious cap; other end is tapered and squared.	Fair	DEACCESSION ED	Warehouse
O 1987.19.1 a-b Pot, Melting 	a) lead-caster: black heavy cast iron stand with swivel press-like platform attached to upper part of stand arms; b) lead melting pot: rectangular housing for gas burner standing on four legs, has two doors front, upper with sliding vent, between doors reads: "SURGOY & CO., / COLUMBUS, O"; back has oval opening for chimney, gas pipe fitting with adapter and two connectors (removable but not numbered individually) on bottom; top has a deep rectangular cavity for lead;	Fair	DEACCESSION ED	Warehouse
O 1987.25.1 Bell 	Large C.S. Bell Co. cast iron bell and yoke, clapper; "NO. 22 YOKE" and 22 bell. Yoke has repair done in one arm at the lower curve.	Good	DEACCESSION ED	Warehouse
O 1987.47.105 Umbrella 	Umbrella with black fabric canopy, brown painted metal stem, curved varnished wooden handle with bands of dark staining. Eight ribs and stretchers and a long pointed tip. Strap fastener with black metal popper.	Fair	DEACCESSION ED	Warehouse
O 1988.20.1a-b Washtub 	B T TUB BENCH PAT 1923, wooden tub stand with wire reinforcements on casters. b) Square galvanized steel tub with a 'D' shaped handle on each side. Tub has a ridged section around the middle. Base also has ridges (concentric) and is stamped with "42/ PAT. No 353134".	Fair	OK	Warehouse

Catalog / Objectid / Objname	Description	Condition	Status	Home Location
O 1988.22.1 Door 	One very heavy oak door with a 5 bar window at center eye level, white paint peeling off the surface. There is a heavy metal lock hasp and 2 heavy hinges at the top and bottom left side	Good	OK	Warehouse
O 1988.24.1 Gate 	Two leaves of a pole and spear picket fence-style metal gate, painted metallic light grey (silver), 4 red reflectors on square plates welded close to the centre of each leaf, fixed end posts are higher than the centre poles, brackets for locking on lower part of centre posts.	Fair	OK	Warehouse
O 1988.70.1 Press, Standing 	Midget Reliance standing press No. 795 with sliding platen: Cast iron frame joined on top by flat vertical plate with manufacturer's name centre front; centred in frame horizontal rails for sliding platen, centre front of rail has hole (possible for a support leg missing); press mechanism level has wooden handle; pressure mechanism parts are not numbered individually (two short and heavy metal arms, two polished metal rollers with flat ends and one bullet shaped peg) but assemble on level when platen in place; heavy paper and canvas visible inside printing frame.	Fair	DEACCESSION ED	Warehouse
O 1988.71.1 Press, Printing 	Cast iron "CHANDLER & PRICE Co." printing press, painted dark brown. Stands on frame with four feet, central section has a circular ink plate, single roller and two-level wooden platform. There is a large flywheel and lever attached to one side and a drive belt with a sheet aluminium and mesh guard attached to the other. A dark grey "KIMBLE ELECTRIC COMPANY" motor sits at one end along with a grey switch box and a black metal box with a lever. A switch cable runs to the other end of the press where a smaller on/off switch with green and red buttons is attached. Also found loose on the press: a roller, a chase (steel frame), a wooden tool handle, a small brass hinge and a steel nut.	Fair	DEACCESSION ED	Warehouse

Catalog / Objectid / Objname	Description	Condition	Status	Home Location
O 1989.1.4 Ornament, Holiday 	Five-point star frame: five pieces of 1.3 cm. square metal bar welded to form five-point shape; round hanging rod welded to one point.	Fair	DEACCESSION ED	Warehouse
O 1989.19.1 Locker 	Single tier three locker unit, grey, front painted yellow, each door has small metal plate reads: "WESTEEL PRODUCTS LIMITED" and numbered from l to r: 508, 509, 510; each unit has a door lock and shelf.	Fair	OK	Warehouse
O 1989.34.6 Cart 	Metal, 3 tier cart on 4 wheels, top is recessed, handle at side extends width of cart.	Good	DEACCESSION ED	Warehouse
