Kuehneromyces lignicola

Lasiobelonium corticale

Lenzites betulina (= *Trametes betulina*)

Mollisia cinerea

Mycena leptoccephala

Orbilina eremaeae

Peziza repanda

Pirex concentricus

Pleurotus ostreatus

Polyporus badius

Stictis virginea

Trametes hirsuta

Xylaria sp.

Pemberton, Mosquito Lake, Oluna's collections June 3 afternoon

Amanita aprica

Athelia bombacina

Cerrena unicolor

Fomes fomentarius

Gymnopus subsulphureus

Lachnum bicolor

Trametes versicolor

Brandywine Falls June 4

Acanthophysellum lividocoeruleum

Cronartium coleosporioides

Cronartium harknessii

Dacrymyces punctiformis

Guepinopsis alpina

Gymnopus dryophilus

Hyphodontia floccosa

Laccaria laccata

Lachnum rhytismatis

Lachnum virgineum

Lasiobelonium relicinum
Lichenomphalia umbellata
Mitrula elegans
Mollisia melaleuca

Mycosphaerella pteridis
Nectria fuckeliana
Nemania serpens
Pezoloma obstricta

Most interesting finds:

Acanthophysellum lividocoeruleum (Brandywine)
Capitotricha fagiseda (One Mile Lake trail)
Dacrymyces punctiformis (Brandywine)
Mycosphaerella pteridis (Brandywine)
Orbilium eucalypti (Lillooet River)
Stictis ostropoides (One Mile Lake trail)
Stictis virginea (Pemberton River)
Pezoloma obstricta (Brandywine) – the most interesting find so far
