

2021 WASHINGTON BOTANICAL SYMPOSIUM (ONLINE)

Crowberry Bog. Photo by Joe Rocchio.

Thursday, March 4, 2021
9:00am – 3:30pm (PST)

REGISTER NOW

\$30 General Admission

Scholarships available for students, service corps members, or anyone with need.

An extensive network of professional, academic, and amateur botanists are actively engaged in the conservation, management, and study of Washington's diverse flora. Their expertise ranges from how best to manage biodiversity, to understanding climate change impacts on plant communities, to naming and classifying the flora's rare, common, and invasive elements. Invited speakers and poster presentations will share new insights and discoveries about these topics and more. Participants from throughout Washington and adjacent areas will have the opportunity to hear from colleagues within and across disciplines. This program will be presented online as a Zoom webinar.

Visit the website for virtual opportunities to share research posters and announcements!
